Good news for Ian, house number 42 !. The council have contracted out the cleaning of the park in front of the community. So , Ian can put his feet up and relax the next time his visits and shouldn't have to organize a cleaning party.

We have seen an unwelcome increase in house burglaries over the last couple of months. We would ask everybody to ensure that they lock and bolt their doors and windows and to instruct anyone using their property to do the same. In nearly all the cases of a burglary taking place a window has been left open or a door not locked , an open invitation to the burglar !!.

Finally, the holiday season is nearly upon us and we would ask all owners to inform their guests of the rules of the urbanization and not leave it to members of the committee to have to tell them. It is evident that a minority of owners are still not informing their guests prior to their arrival .
